

Family ANSORGIIDAE

The family Ansorgiidae was erected by Krzemiński & Lukashvitch (1993) based on the single genus *Ansorgia*. The family was placed by these authors as closely related to Ptychopteridae. Unfortunately, *Ansorgia* is preoccupied by *Ansorgia* Warren, 1899. A new replacement name, *Ansorgius* is proposed here by Wiesław Krzemiński for *Ansorgia*.

Ref.: Krzemiński & Lukashvitch (1993, review and phylogeny).

Genus ANSORGIUS Krzemiński, new name

ANSORGIA Krzemiński & Lukashvitch, 1993: 594. Type species: *Ansorgia praedicta* Krzemiński & Lukashvitch, 1993, by original designation. [Preoccupied by Warren, 1899.] **New synonymy**.

ANSORGIUS Krzemiński, 1994: in this work (**new replacement name** for *Ansorgia* Krzemiński & Lukashvitch). Type species: *Ansorgia praedicta* Krzemiński & Lukashvitch, 1993, automatic.

praedicta Krzemiński & Lukashvitch, 1993: 594 (*Ansorgia*). PA: Kazakhstan (Upper Jurassic) [C]. **New combination**.
