

Family ARCHIZELMIRIDAE

The family Archizelmiridae was erected by Rohdendorf (1962) for the monobasic genus *Archizelmira* from the Upper Jurassic deposits of Karatau in Kazakhstan. Rohdendorf (1964) placed the family in the Bibionomorpha near the Pleciofungivoridae.

Genus ARCHIZELMIRA Rohdendorf

ARCHIZELMIRA Rohdendorf, 1962: 326 (1991: 473). Type species: *Archizelmira kazachstanica* Rohdendorf, 1962, by original designation.

kazachstanica Rohdendorf, 1962: 326 (1991: 473). PA: Kazakhstan (Upper Jurassic) [C].
