

Family EREMOCHAETIDAE

Ussatchev (1968) erected the family Eremochaetidae for the single genus *Eremochaeta* Ussatchev. Kovalev (1989a) discussed the systematics and classification of the family, including in it three genera. Based on morphological characters shown in the fossil specimens, Kovalev (1989a) surmised that the group was parasitic and thermophilic. All taxa have thus far been found in the Cretaceous and Jurassic deposits of Mongolia and Transbaikalia in eastern Russia.

Krivosheina & Zaitzev (1989) placed the family in the basalmost position of their infraorder Asilomorpha (which essentially is equal to orthorrhaphous Bra-chycera) with a questionable connection to the Bombylioidea.

Ref.: Kovalev (1989a, review and classification of taxa).

Genus DISSUP Evenhuis, new name

EREMONOMUS Kovalev, 1989a: 106 (1990: 102). Type species: *Eremonomus irae* Kovalev, 1989, by original designation. [Preoccupied by Wollaston, 1861.] **New synonymy.**

DISSUP Evenhuis, 1994: in this work (**new replacement name** for *Eremonomus* Kovalev). Type species: *Eremonomus irae* Kovalev, 1989, automatic.

irae Kovalev, 1989a: 106 (1990: 102) (*Eremonomus*). PA: Russia (Siberia) (Lower Cretaceous) [C]. **New combination.**

Genus EREMOCHAETOSOMA Kovalev

EREMOCHAETOSOMA Kovalev, 1986: 149. Type species: *Eremochaetosoma mongolicum* Kovalev, 1986, by original designation.

mongolicum Kovalev, 1986: 151. PA: Mongolia (Lower Cretaceous) [C].

Genus EREMOCHAETUS Ussatchev

EREMOCHAETUS Ussatchev, 1968: 618 (378). Type species: *Eremochaetus asilicus* Ussatchev, 1968, by original designation.

asilicus Ussatchev, 1968: 618 (378). PA: Russia (Siberia) (Upper Jurassic) [C].

Genus PAREREMOCHAETUS Ussatchev

PAREREMOCHAETUS Ussatchev, 1968: 619 (379). Type species: *Pareremochaetus minor* Ussatchev, 1968, by original designation.

minor Ussatchev, 1968: 619 (379). PA: Kazakhstan (Upper Jurassic) [C].

Questionably Placed in EREMOCHAETIDAE**Genus ARCHISARGUS Rohdendorf**

ARCHISARGUS Rohdendorf, 1938: 30. Type species: *Archisargus pulcher* Rohdendorf, 1938, by original designation.

pulcher Rohdendorf, 1938: 30. PA: Kazakhstan (Upper Jurassic) [C].
