

Unplaced TABANOIDEA

Kovalev (1986) described two new genera of Diptera that he considered unplaced and near Tabanidae. They cannot be placed with certainty in any existing family and are here placed as unplaced in Tabanoidea.

Genus **BATGANA** Kovalev

BATGANA Kovalev, 1986: 146. Type species: *Batgana minor* Kovalev, 1986, by original designation.

minor Kovalev, 1986: 148. PA: Mongolia (Lower Cretaceous) [C].

Genus **SHULMAS** Kovalev

SHULMAS Kovalev, 1986: 148. Typespecies: *Shulmas globiceps* Kovalev, 1986, by original designation.

globiceps Kovalev, 1986: 148. PA: Mongolia (Lower Cretaceous) [C].
