RESEARCH PUBLICATIONS OF BISHOP MUSEUM

Research publications of Bishop Museum are issued irregularly in the following active series:

- *Bishop Museum Occasional Papers*. A series of short papers describing original research in the natural and cultural sciences. Publications containing larger, monographic works are issued in four areas:
- *Bishop Museum Bulletins in Anthropology*
- *Bishop Museum Bulletins in Botany*
- *Bishop Museum Bulletins in Entomology*
- *Bishop Museum Bulletins in Zoology*

Numbering by volume of *Occasional Papers* ceased with volume 31. Each *Occasional Paper* now has its own individual number starting with Number 32. Each paper is separately paginated.

The Museum also publishes *Bishop Museum Technical Reports*, a series containing information relative to scholarly research and collections activities. Issue is authorized by the Museum's Scientific Publications Committee, but manuscripts do not necessarily receive peer review and are not intended as formal publications.
