First Reviser actions for multiple original spellings of genus-group names in Diptera

NEAL L. EVENHUIS 

J. Linsley Gressitt Center for Research in Entomology, Bishop Museum, 1525 Bernice Street, Honolulu, Hawai'i 96817-2704, USA; email: NealeE@bishopmuseum.org.

Abstract. First Reviser actions selecting correct spellings from multiple original spellings of 11 genera of Diptera are given.

Multiple original spellings were discovered in 11 genus-group names, for which an extensive search of the literature did not reveal any First Reviser actions under Article 24.2.3 or 24.2.4 of the *International Code of Zoological Nomenclature* (ICZN 1999). The relevant actions are provided here in order to bring updated and unambiguous information in *Systema Dipterorum*.

***Atrichodelia* Karl, 1943**

REMARKS: Karl (1943) proposed two original spellings for this name: *Gymodelia* (p. 67) and *Atrichodelia* (p. 66). Acting as First Reviser, I select *Atrichodelia* as the correct original spelling for this nominal genus.

CURRENT NAME: *Delia* Robineau-Desvoidy, 1830 [*teste* Koçak (2014: 52)].

FAMILY: Anthomyiidae.

***Aenigmatias* Meinert, 1890**

REMARKS: Meinert (1890) proposed two original spellings for this name: *Aegnigmatias* (pp. 223, 224, 225, 226) and *Aenigmatias* (p. 213). Acting as First Reviser, I select *Aenigmatias* as the correct original spelling for this nominal genus.

CURRENT NAME: *Aenigmatias* Meinert, 1890 [*teste* Haenni (2024: 295)].

FAMILY: Phoridae.

***Apisomyia* Woodley & Lessard, 2018**

REMARKS. Woodley & Lessard *in* Lessard *et al.* (2018) proposed two original spellings for this name: *Apisomya* (abstract, p. 1) and *Apisomyia* (p. 2). Realizing that there was a misspelling in the abstract, a correction appeared (Anonymous 2019; attributed as such because there is no authorship given, but a note says the publisher made the correction), which however does not qualify as a First Reviser action. In fact, one name in this “correction” was rendered as *Apisomyia*, while the intended corrected spelling was given as *Apisomyia* (an incorrect subsequent spelling of *Apisomyia*). As First Reviser, I select *Apisomyia* as the correct original spelling for this nominal genus. NB: The original and Code-compliant electronic version without volume pagination was deleted from the publisher’s website and replaced by the volume-paginated 2019 version (Lessard *et al.* 2019). The pages listed here are of the original electronic version since that is the version of record and has priority.

CURRENT NAME: *Apisomyia* Woodley & Lessard, 2018 [*teste* **this work**].

FAMILY: Stratiomyidae.

***Calyntropyga* Enderlein, 1938**

REMARKS: Enderlein (1938) proposed two original spellings for this name: *Calyntropyga* (p. 679) and *Callyntropyga* (p. 644). Acting as First Reviser, I select *Callyntropyga* as the correct original spelling for this nominal genus.

CURRENT NAME: *Toxotarsus* Macquart, 1851 [*teste* Peris (1992: 82)].

FAMILY: Calliphoridae.

***Collosoptera* Hull, 1973**

REMARKS: Hull (1973) proposed two original spellings for this name: *Collosoptera* (p. 657) and *Colossoptera* (p. 430). Acting as First Reviser, I select *Collosoptera* as the correct original spelling for this nominal genus-group name.

CURRENT NAME: *Zygodiola* Bezzi, 1926, a subgenus of *Heteralonia* Rondani, 1863 [*teste* Evenhuis & Greathead (2015: 409)].

FAMILY: Bombyliidae.

***Lahillemyia* Blanchard, 1939**

REMARKS: Blanchard (1939) proposed two original spellings for this name: *Lahillemya* (p. 818) and *Lahillemyia* (pp. 795, 819, 820). Acting as First Reviser, I select *Lahillemyia* as the correct original spelling for this nominal genus.

CURRENT NAME: *Lipoptilocnema* Townsend, 1914 [*teste* Mulieri *et al.* (2016: 2)].

FAMILY: Sarcophagidae.

***Nagatomukha* Mostovski & Martinez-Delclòs, 2000**

REMARKS: Mostovski & Martinez-Delclòs (2000) proposed two original spellings for this name: *Nagatomukha* (p. 140) and *Nagatomukha* (p. 140). Acting as First Reviser, I select *Nagatomukha* as the correct original spelling for this nominal genus.

CURRENT NAME: *Nagatomukha* Mostovski & Martinez-Delclòs, 2000 [*teste* Zhang *et al.* (2019: 1)].

FAMILY: Rhagionemestriidae.

***Omatessara* Schmitz, 1932**

REMARKS: Schmitz (1932) proposed two original spellings for this name: *Omotessara* (p. 121) and *Omatessara* (p. 117). Acting as First Reviser, I select *Omatessara* as the correct original spelling for this nominal genus.

CURRENT NAME: *Omapanta* Schmitz, 1932, a subgenus of *Phalacrotophora* Enderlein, 1912 [*teste* Delage & Lauraire (1974: 497)].

FAMILY: Phoridae.

***Paleothereva* Feng, Ren & Wang, 2026**

REMARKS: Feng, Ren & Wang in Feng *et al.* (2026) proposed two original spellings for this name: *Palethereva* (p. 284, fig. 1) and *Paleothereva* (p. 285). Acting as First Reviser, I select *Paleothereva* as the correct original spelling for this nominal genus.

CURRENT NAME: *Paleothereva* Feng, Ren & Wang, 2026 [*teste this work*].

FAMILY: Therevidae.

***Paraascodipteron* Advani & Vazirani, 1981**

REMARKS: Advani & Vazirani (1981) proposed two original spellings for this name: *Parascodipteron* (p. 3) and *Paraascodipteron* (p. 41). Acting as First Reviser, I select *Paraascodipteron* as the correct original spelling for this nominal genus.

CURRENT NAME: *Paraascodipteron* Advani & Vazirani, 1981 [*teste* Hastriter (2007: 1)].

FAMILY: Hippoboscidae.

***Rhinomyza* Jensen, 1832**

REMARKS: Jensen (1832) proposed two original spellings for this name: *Khinomyza* (p. 319) and *Rhinomyza* (p. 323). Acting as First Reviser, I select *Rhinomyza* as the correct original spelling for this nominal genus.

CURRENT NAME: *Rhinomyza* Wiedemann, 1820 [*teste this work*].

FAMILY: Tabanidae.

ACKNOWLEDGMENTS

Thanks to Thomas Pape for his review and comments, which helped improve the paper.
